

Connecting Local Educators to Local Forest Teaching Resources

FORESTREE EXPERIENCE

June 19-20, 2019

WHO SHOULD ATTEND

Teachers of grades K-8 interested in learning about forest ecosystems and conservation education topics, and sharing that knowledge with your students in the classroom.

WHAT TO EXPECT

- Interact with foresters, biologists, educators, loggers, arborists, fire managers, and landowners who care for forest lands and make products we use every day.
- Hands-on learning will include resources and activities that you can bring to life in your classroom or school yard through citizen science, career exploration, and field study.
- 14 hours SBEC CPE and 14 hours TEEAC credit. Class time is 8:30 am to 4:00 pm each day.

Day 1: William Goodrich Jones State Forest Classroom, Conroe - 8:30 AM

- Learn about Texas forest ecosystems, habitat management, forest hydrology, fire ecology, and implications of an endangered bird species that is native to Texas.
- Receive training in Project Learning Tree's interdisciplinary environmental education curriculum designed to teach students critical and creative thinking.

Day 2: New Waverly Public Library, meet and begin tours - 8:30 AM

- Tour a family owned tree farm, timber harvest operation and a working sawmill.

REGISTRATION & COST

\$30 registration fee includes lunch both days, field trip transportation, and training materials.

Register online at: <http://www.plttexas.org/> . Registration opens March 1 - May 31. Register early to avoid waitlist. Do you have questions? Call us at 936-273-2261.
