Who Should Attend?

The workshop is designed for forest landowners, consulting foresters, accountants, attorneys, and others who work with forest landowners in matters pertaining to estate planning and timber taxes.

What You’ll Learn

Leave the workshop with nuts and bolts of estate planning techniques to forest properties. You’ll learn the purpose of an estate plan, strategies to reduce or eliminate estate taxes, basic documents of an estate plan, whether to use wills or trusts, forestry-specific estate planning tools, different forms of ownership and their implications, and implications of potential changes to estate tax law.

Speaker

Dr. Robert Tufts is an Attorney and Associate Professor in the School of Forestry and Wildlife Sciences at Auburn University. Robert earned a B.S. and M.S. in forestry from Louisiana State University and a Ph.D. in forestry from Virginia Tech. His legal education consists of a J.D. from Faulkner University, and a Master of Laws in taxation from the University of Alabama. His current research is focused on estate planning, business entities and property law issues for landowners. Robert also has a part-time law practice limited to tax and estate planning, business entities and property issues.
