My Land Management Connector:

A new, web-based application designed to assist small-scale forest landowners in the western Gulf region of the United States with procuring land management services on small parcels

Presented By:

Samuel J. Rhodes
Staff Forester
Ownership Trends in Southeast U.S.

USDA Forest Service- Forest Ownership Dynamics of Southern Forests:

- Forested area in south = 86%
- 2/3 area owned by families or individuals
- Average size parcel of family lands = 29 acres
Common Problems for Small Acreage Landowners

• Services may cost more
• Potentially not as much profit or pay for services
  – Thinning
  – Herbicide Application
  – Prescribed burning
