

eInvoice is an online application accessed through the web to create, manage, and store invoices with many timesaving benefits

Invoice numbers and the invoice are generated online

Eliminates carbon copy invoice booklets, assigned sequences for the PDF invoice, and invoice logs

User friendly web-based interface

Enter invoice criteria using dropdown menus and search options

Invoice totals are automatically calculated

Enter quantity and unit price and the extended amount is calculated

Immediate transmittal to Accounts Receivable for FAMIS entry

Eliminates the pink copy for A/R (save the pink trees)

Any invoice created in the application can be copied and edited for future use

Each user will have an archive of any invoice created under that username

CHANGE IS GOOD,
CHANGE IS HERE!

Introducing

 **Invoice**
TEXAS FOREST SERVICE

The smart way to invoice.
