Emergency Conservation Program

Overview

USDA Farm Service Agency's (FSA) Emergency Conservation Program (ECP) provides emergency funding and technical assistance to farmers and ranchers to rehabilitate farmland damaged by natural disasters and for implementing emergency water conservation measures in periods of severe drought. Funding for ECP is appropriated by Congress.

Program Administration

ECP is administered by FSA state and county committees. Subject to availability of funds, locally-elected county committees are authorized to implement ECP for all disasters except drought, which is authorized by the FSA national office.

Land Eligibility

FSA county committees determine land eligibility based on on-site inspections of damaged land. They consider the type and extent of damage. For land to be eligible, the natural disaster must create new conservation problems that, if untreated, would:

- Impair or endanger the land;
- Materially affect the land's productive capacity;
- Represent unusual damage which, except for wind erosion, is not the type likely to recur frequently in the same area; and
- Be so costly to repair that Federal assistance is or will be required to return the land to productive agricultural use.

Conservation problems existing before the applicable disaster event are ineligible for ECP assistance.

Payments

As determined by FSA county committees, ECP participants may receive cost-share assistance of up to 75 percent of the cost to implement approved emergency conservation practices. Qualified limited-resource producers receive cost-share assistance of up to 90 percent of the cost to implement approved emergency conservation practices.

Individual or cumulative requests for cost-share assistance of \$50,000 or less per person or legal entity, per disaster are approved at the county committee level. Cost-share assistance requests exceeding \$50,000 require approval from the state committee or national office level. Cost-share assistance is limited to \$200,000 per person or legal entity, per disaster.

Technical assistance may be provided by USDA's Natural Resources Conservation Service.

Emergency Conservation Practices

To rehabilitate farmland, ECP participants may implement emergency conservation practices such as:

- Debris removal from farmland;
- Restoring livestock fences and conservation structures; and
- Providing water for livestock during periods of severe drought.

Other conservation measures may be authorized by FSA county committees, with approval from FSA state committees and the FSA national office.

Sign-up Periods

Producers should inquire with their local FSA county office regarding ECP sign-up periods, which are established by FSA county committees.

For More Information

More information on ECP is available at FSA offices and on FSA's Web site at: <http://disaster.fsa.usda.gov>

The U.S. Department of Agriculture (USDA) prohibits discrimination in all of its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, political beliefs, genetic information, reprisal, or because all of part of an individual's income is derived from any public assistance program. (Not all bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination, write to USDA, Assistant Secretary for Civil Rights, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, S.W., Stop 9410, Washington, DC 20250-9410, or call toll-free at (866) 632-9992 (English) or (800) 877-8339 (TDD) or (866) 377-8642 (English Federal-relay) or (800) 845-6136 (Spanish Federal-relay). USDA is an equal opportunity provider and employer.

Emergency Forest Restoration Program

Overview

USDA Farm Service Agency's (FSA) Emergency Forest Restoration Program (EFRP) provides payments to eligible owners of nonindustrial private forest (NIPF) land in order to carry out emergency measures to restore land damaged by a natural disaster. Funding for EFRP is appropriated by Congress.

Program Administration

EFRP is administered by FSA's state and county committees and offices. Subject to availability of funds, locally-elected county committees are authorized to implement EFRP for all disasters except drought and insect infestations, which are authorized at the FSA national office.

Land Eligibility

County FSA committees determine land eligibility using on-site damage inspections that assess the type and extent of damage. To be eligible for EFRP, NIPF land must:

- Have existing tree cover (or had tree cover immediately before the natural disaster occurred and is suitable for growing trees); and,
- Be owned by any nonindustrial private individual, group, association, corporation, or other private legal entity, that has definitive decision-making authority over the land.

In addition, the natural disaster must have resulted in damage that if untreated would:

- Impair or endanger the natural resources on the land; and,
- Materially affect future use of the land.

Payments

EFRP program participants may receive financial assistance of up to 75 percent of the cost to implement approved emergency forest restoration practices as determined by county FSA committees.

Individual or cumulative requests for financial assistance of \$50,000 or less per person or legal entity, per disaster are approved by the county committee. Financial assistance from \$50,001 to \$100,000 is approved by the state committee. Financial assistance over \$100,000 must be approved at the FSA national office. A payment limitation of \$500,000 per person or legal entity applies per disaster.

Emergency Forest Restoration Practices

To restore NIPF, EFRP program participants may implement emergency forest restoration practices, including emergency measures:

- Necessary to repair damage caused by a natural disaster to natural resources on nonindustrial private forest land; and
- Restore forest health and forest related resources on the land.

Other emergency measures may be authorized by county FSA committees, with approval from state FSA committees and the FSA national office.

Sign-up Periods

Producers should check with their local county FSA offices regarding EFRP sign-up periods, which are set by county FSA committees.

For More Information

Additional information on EFRP is available at FSA offices and on FSA's website at: <http://disaster.fsa.usda.gov> and www.fsa.usda.gov/conservation

Farm Loans

Overview

The U.S. Department of Agriculture's Farm Service Agency (FSA) makes and guarantees loans to family farmers and ranchers to promote, build and sustain family farms in support of a thriving agricultural economy. FSA maintains its headquarters in Washington, DC, with offices located in each state, usually in a state capital or near a state land-grant university, as well as in most agriculturally productive counties. Farmers may apply for direct loans at local FSA offices. Guaranteed loans may be available from local commercial lenders who apply for loan guarantees from FSA. Although general information may be obtained from headquarters and state offices, all programs are administered through local offices.

The goal of FSA's farm loan programs is to graduate its borrowers to commercial credit. Once a farmer is able to obtain credit from the commercial lending sector, the Agency's mission of providing temporary, supervised credit is complete.

FSA Farm Loans

FSA's loan programs are designed to help family farmers obtain loans and loan guarantees, and conduct business planning. In many cases, these are beginning farmers who need additional financial and business acumen to qualify for commercial credit. In other cases,

they are farmers who have suffered financial setbacks from natural disasters, or who need additional resources with which to establish and maintain profitable farming operations.

Some farmers obtain their credit needs through the use of loan guarantees. Under a guaranteed loan, a commercial lender makes and services the loan, and FSA guarantees it against loss up to a maximum of 90 percent in most cases. In certain limited circumstances, a 95 percent guarantee is available. FSA has the responsibility of approving all eligible loan guarantees and providing oversight of lenders' activities.

For those not yet meeting the qualifications for a loan guarantee from a commercial lender, FSA also makes direct loans, which are serviced by an FSA official. FSA has the responsibility of providing credit counseling and supervision to its direct borrowers by making a thorough assessment of the farming operation. The Agency helps applicants evaluate the adequacy of the real estate and facilities, machinery and equipment, financial and production management, and the farmer's goals. FSA assists the applicant in identifying and prioritizing areas needing improvement in all phases of the operation. An FSA official then works one-on-one with the farmer to develop and to help strengthen the identified areas that ultimately result

in the farmer's graduation to commercial credit.

Unlike FSA's commodity loans, most farm loans must be fully secured and can only be approved for those who have repayment ability.

Farm Ownership Loans

Eligible applicants may obtain direct loans up to a maximum indebtedness of \$300,000. Maximum indebtedness for guaranteed loans is \$1,214,000 (amount adjusted annually for inflation). The maximum repayment term is 40 years for both direct and guaranteed farm ownership loans. In general, loan funds may be used to purchase a farm, enlarge an existing farm, construct new farm buildings and/or improve structures, pay closing costs, and promote soil and water conservation and protection.

Farm Operating Loans

Eligible applicants may obtain direct loans for up to a maximum indebtedness of \$300,000, and guaranteed loans for up to a maximum indebtedness of \$1,214,000 (amount adjusted annually for inflation). The repayment term may vary, but typically it will not exceed seven years for intermediate-term purposes. Annual operating loans are generally repaid within 12 months or when the commodities produced are sold. In general, loan funds may be used for normal operating expenses, machinery and equipment, real

estate repairs, and refinancing debt.

Targeted Funds to Socially Disadvantaged and Beginning Farmers

Each year Congress targets a percentage of farm ownership and farm operating loan funds to socially disadvantaged (SDA) and beginning farmers. For more information, refer to the FSA Fact Sheet, "Loans for Socially Disadvantaged Farmers."

Downpayment Program

FSA has a special loan program to assist socially disadvantaged and beginning farmers in purchasing a farm. Retiring farmers may use this program to transfer their land to future generations.

To qualify:

- The applicant must make a cash down payment of at least 5 percent of the purchase price.
- The maximum loan amount does not exceed 45 percent of the least of (a) the purchase price of the farm or ranch to be acquired; (b) the appraised value of the farm or ranch to be acquired; or (c) \$500,000 (Note: This results in a maximum loan amount of \$225,000).
- The term of the loan is 20 years. The interest rate is 4 percent below the direct FO rate, but not lower than 1.5 percent.
- The remaining balance may be obtained from a commercial lender or private party. FSA can provide up to a 95 percent

guarantee if financing is obtained from a commercial lender. Participating lenders do not have to pay a guarantee fee.

- Financing from participating lenders must have an amortization period of at least 30 years and cannot have a balloon payment due within the first 20 years of the loan.

Rural Youth Loans

These are available as direct loans only and have a maximum loan amount of \$5,000. Rural youth loans may be made to individuals who are sponsored by a project advisor, such as a 4-H Club, FFA or local vocational instructor. Individuals must be at least 10 but not more than 20 years old to be eligible and reside in a town or city with a population of 50,000 or fewer people.

Emergency Loans

These loans are available only as direct loans from FSA. Emergency Loans assist farmers who have suffered physical or production losses in areas declared by the President as disaster areas or designated by the Secretary of Agriculture as disaster or quarantine areas (for physical losses only, the FSA Administrator may authorize Emergency Loan assistance). For production loss loans, applicants must demonstrate a 30 percent loss in a single farming or ranching enterprise. Applicants may receive loans up to 100 percent of production or physical losses.

Loan purposes include operating and real estate,

restoring/replacing essential property, production costs for disaster year, essential family living expenses, reorganization and refinancing certain debts.

The maximum indebtedness under the Emergency Loan program is \$500,000.

Loan Servicing and Supervised Credit

FSA's mission is not limited to providing just credit - it is to provide supervised credit. This means that FSA works with each direct loan borrower to identify specific strengths and opportunities for improvement in farm production and management, and then works with the borrower on alternatives and other options to address the areas needing improvement to achieve success. Learning improved business planning and financial acumen through supervised credit is the difference between success and failure for many farm families.

To help keep borrowers on the farm, FSA may be able to provide certain loan servicing benefits to direct loan borrowers whose accounts are distressed or delinquent due to circumstances beyond their control. These benefits include:

- Reamortization, rescheduling, and/or deferral of loans;
- Rescheduling at the Limited Resource (lower interest) rate;
- Acceptance of conservation contracts on environmentally sensitive land in exchange for reduction of debt; and

- Writing down the debt (delinquent borrowers only).

If none of these options results in a feasible farm operating plan, borrowers may be offered the opportunity to pay off their debt at the current market value of the security. If this is not possible, other options include:

- Debt settlement based on inability to repay.
- In some cases, where a feasible plan of operation cannot be developed, FSA works with commercial lenders to help him or her retain the homestead and up to 10 acres of land.

Farms that come into FSA ownership are sold at market value, with preference given to socially disadvantaged and beginning farmers.

Who May Borrow

To qualify for assistance, applicants must meet all loan eligibility requirements including:

- Be a family-size farmer;
- Have a satisfactory history of meeting credit obligations;
- For direct OL loans, have sufficient education; training, or at least 1-year's experience in managing or operating a farm or ranch within the last 5 years. For direct FO loans, applicants must have participated in the business operations of a farm or ranch for 3 years;
- Be a citizen of the United States, including Puerto Rico,

the U. S. Virgin Islands, Guam, American Samoa, and certain former Pacific Island Trust Territories, a U.S. non-citizen national, or a qualified alien under federal immigration law;

- Be unable to obtain credit elsewhere at reasonable rates and terms to meet actual needs;
- Possess legal capacity to incur loan obligations;
- Not be delinquent on a Federal debt;
- Not have caused FSA a loss by receiving debt forgiveness (certain exceptions apply) and;
- Be within the time restrictions as to the number of years they can receive FSA assistance.

In the case of an entity, certain eligibility requirements apply. The entity must:

- Meet applicant eligibility requirements;
- Be authorized to operate a farm or ranch in the State where the actual operation is located and;
- Be owned by U.S. citizens, U.S. non-citizen nationals or qualified aliens.

For SDA members, they must hold a majority interest in the entity applicant to receive SDA benefits.

If the individuals holding a majority interest in the entity are related by blood or marriage, at least one stockholder, member, or partner must operate the family farm or ranch. If they

are not related by blood or marriage, those holding a majority interest must operate the farm or ranch.

For More Information

Additional information may be obtained at local FSA offices or through the FSA website at www.fsa.usda.gov.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, political beliefs, genetic information, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of Discrimination, write to USDA, Assistant Secretary for Civil Rights, 1400 Independence Avenue, SW., Stop 9410, Washington, DC 20250-9410, or call toll-free at (866) 632-9992 (English) or (800) 877-8339 (TDD), or (866) 377-8642 (English Federal-relay), or, or (800) 845-6136 or.
