Phone

Project Information

Project Overview:
Provide a succinct and relevant summary that can be easily understood and clearly communicate the importance of the project. This summary should include project background, location, community need for the project, high level goals, and partnerships.
Maximum 1000 Characters

Goals and Objectives:

Describe what you plan to accomplish. Context should clearly identify priority landscapes and issues that are the focus of the project. Goals and objectives should be explicitly explained and linked to the specific grant category. Objectives should be realistic, measurable and attainable within the contract period. Maximum 2000 Characters

Proposed Activities:

Clearly describe with specificity, activities to be completed with grant funds and leveraged resources. Link specific project activities to funding amounts in the Project Budget and to stated project goals and objectives. Clearly describe the match fund sources and what their uses will be.

Maximum 2500 Characters

Deliverables, Timelines, Outputs, Outcomes:

Describe the timeline for this project in detail. Clearly lay out deliverables and outcomes and describe how the selected objectives will lead to measurable outcomes and how the applicant will measure progress towards those outcomes.

• What is the benefit to the community and/or state?

• What need or issue will it solve?

• How visible will it be to the community?

• What is the public relations impact and how will it increase public awareness?

• Will the program or project continue after the grant expires?

• Outline the proposed Timeline for this project.

Maximum 2000 Characters

Sustainability of Outcomes:

Describe how the project results in outcomes that extend beyond the life of the project itself. Outline a plan for management of the trees that will ensure the success of the project long-term. Provide rationale for why dollars invested will sustain project outcomes into the future beyond project end date.
Maximum 1250 Characters

Community Need:

The project should include the following elements: A description of the benefiting community. This could include factors such as general characteristics, challenges, and the specific needs faced by the community, such as health, economic, environmental, or social impacts. Data or evidence should support the proposal. Applicants may consider using national tools and datasets or provide more localized information, such as tribal, local, or state data, to describe the populations and conditions that the project aims to benefit. A description of how the project addresses the needs of the targeted communities. This could be social, ecological, or economic benefits and should include:

• An overview of the targeted community and partners engaged in the project; and how they will be impacted by the project.

• Quantitative and qualitative description of how communities will be engaged to participate in/benefit from the project.

Maximum 2000 Characters

Collaboration:

Proposals should demonstrate use of coordination and partnerships with local or state entities to improve outcomes.

• Describes how the project is collaborative and clearly identifies partners that are actively engaged and add value towards project planning and implementation.

• Cultivates organization of partners around common goals/objectives.

Maximum 1000 Characters

Budget

Amount of Funds Requested: $50,000

This is equal to the **Total Federal $.**
This grant category requires a dollar for dollar match (1:1 Match). Your Total Local $ needs to be greater than or equal to your Total Federal $.
Add **Total Local Cash $** + **Total Local In-Kind $** to calculate **Total Local $**

	Federal $	Local Cash $	Local In-Kind $	Total $
Personnel				
Fringe				
Travel				
Supplies and Materials				
Equipment				
Contractual/Professional Services				
Other				
Totals				
	Total Local $:			

Clearly describe how the amount in the category will be used. Maximum 1000 characters.
